

# Get Connected

## with the Connectivity Cellular Accessory

Eliminate Wi-Fi disconnects and network headaches with the Connectivity Cellular Accessory, for seamless, worry-free monitoring. Sign up for a dealer-managed plan and let your dealer monitor your generator for you!

### Why upgrade?

#### In-Outage Monitoring

Unlike Wi-Fi, a cellular connection remains connected even during power outages.\*

#### No Network Hassles

Eliminate the common issues of Wi-Fi disconnects, weak signals, and router problems.

#### Reliable Connectivity

Cellular provides robust, uninterrupted communication with multi-carrier support across the US and Canada with automatic carrier switching.

#### Simple Setup

Cellular monitoring is plug-and-play, requiring no complex network configurations or passwords.

#### Fewer Interruptions

Avoid interference from other devices on your home network, and eliminates ISP and router downtime.
